SATURDAY JUNE 24, 1882

**TRYING TO SAVE HIS NECK.**

Two meetings of the Cabinet were held yesterday to consider the petitions filed for a respite of sentence in Guiteau's case until after an examination of the prisoner's sanity. The Attorney-General says no decision was reached by the Cabinet, but that all the papers were in his hands and he would render a final decision positively at another Cabinet meeting to-day. What the personal opinion of the Attorney-General is as regards the respite is he would not say, but the impression is very strong that after a decorous delay of three days the petitioners will be informed that the execution must take place on the day fixed by the Court.

It seems a trifle strange that medical gentlemen who are now so profoundly convinced of Guiteau's insanity did not take steps to secure authority to make a scientific examination of the assassin before the week fixed for his execution arrived. Many of the doctors who figure on the petition asking for a stay of execution of sentence, testified for the defense during the trial. After months spent in patient listening to testimony bearing on the question of the prisoner's mental condition, the jury decided that when he fired the fatal shot he knew he was doing an act contrary to law, and if his mind was weak or unbalanced it was not to a degree that made him insane and irresponsible.

The medical cranks attempted to make an argument before the Attorney-General, but were directed to submit in writing their reasons for asking a respite for the assassin. Charles Reed, Guiteau's counsel, saw the President yesterday, and urged that the assassin be respite until November next, when he could ask a full bench of the Supreme Court to grant a writ of habeas corpus. Two of the Justices have already denied Reed's application on well defined principles of criminal jurisprudence, but he is fighting gamely and fearlessly to the end.

As the GAZETTE goes to press it is learned by dispatch from Washington that the Cabinet has decided not to interfere with the sentence of Guiteau, and the Attorney-General this morning instructed the Marshal of the District and Warden of the jail to keep the prisoner in strict confinement and allow no one to see him except his spiritual advisers, his physician and officers of the jail.

**EDITORIAL NOTES.**

There is an impression among a certain large class of public men, the world over, that diplomacy is a field to which the maxim that "Honesty is the best policy" does not apply. Upon their theory the ablest deceiver and intriguer is the best diplomat. But it is well to reject any such principle. The difference between the character of Beaconsfield and that of Gladstone was fully exemplified in their respective diplomatic policies. No one will deny that the former was a most accomplished diplomat of the intriguing sort. Very few men in history are reputed to have possessed a greater amount of this kind of cunning. But what did he do? When he went out of power he left Great Britain embarrassed in Asia, Africa and at home. His great diplomatic stroke that culminated in the Berlin treaty turned out to be a fraud that left Europe in her present unendurable position of armed and precarious peace. Mr. Gladstone's straightforwardness composed matters in South Africa and Asia, and as far as possible released England from European complications. Which was the better diplomat?

Guiteau's soliloquy: "Oh dear, oh dear! On the last of June I'll go to hell in a hemp balloon."

The deaf mutes of the United States propose placing a marble statue of President Garfield in the National Deaf Mute College at Washington.

The Scranton, Pa., miners are to receive 10 per cent. increase of wages and full time for a year. News is received of like concessions on the part of employers at Wilkesbarre and Pittston.

**Guiteau's Futile Appeal for a Respite**  
—The Cabinet Declines to Interfere.  
New York, June 24.

A Times editorial says: It is hardly doubtful that the President's reply to the petition for a respite of Guiteau's sentence will be unfavorable, though the opinion in Washington appears to be about equally divided on the subject. We believe that the opinion of the Attorney-General, by which the President and Cabinet have been guided, shows the accuracy of our correspondent's information. This is to the effect that the prayer of the so-called "experts" will be denied; that there will be no further inquiry into the sanity of Guiteau, and that the legal penalty of the crime will be enacted on the 30th of June. There can be no question that whatever actual decision was reached at the Cabinet meeting has been the one which our correspondent reports is what is expected by the great majority of rational men in this country. It will be time enough to criticize any other conclusion when it is announced. Meanwhile there is some satisfaction in reflecting that to-day will in all probability see the last of the attempts to save the life of Garfield's assassin.

**WASHINGTON, June 24.**  
The Attorney-General, to whom all appeals and petitions presented to the President bearing on Guiteau's case had been referred, submitted an elaborate report to the Cabinet last evening, reviewing all points presented in favor of a respite and recommending that it be not granted, on the ground that the sanity of the prisoner was fully established at the trial. The report was generally discussed and unanimously approved by the Cabinet, all the members of which were present. The understanding was reached that nothing should be disclosed as to the decision of the Cabinet until after it should be made known to the prisoner. Rev. Mr. Hicks called upon the Attorney-General this morning by appointment and was informed that the Cabinet had decided not to interfere with the execution of Guiteau's sentence. Hicks thereupon drove to the jail and informed Guiteau. Guiteau has sent the following message to his spiritual adviser:

"Rev. Mr. Hicks, go and see Arthur and shake your fist in his face. Tell him I made him President by my inspiration, and he must give me unconditional pardon; and if he does not God Almighty will blast him forever. I tell you, brother Hicks, I am God's man, and God takes care of his own." Friends of the condemned man still profess hope. Reed says he does not despair, and he will make another appeal to the President at the earliest opportunity. Dr. Beard left here for New York last evening, but it is expected he will return. Miss Chevalier will have a conference with Dr. Golding and Rev. Hicks this evening to determine upon their future action.

**On Stoneman's Nomination.**  
New York, June 24.

A Times editorial says: General Stoneman has been nominated for Governor by the California Democrats after a long and heated contest in convention. This is a novel departure for the Democrats of the Golden State, as they have left off all of the old prejudices, so far as pecuniary availability is concerned. General Stoneman is regarded as an old Californian, although he has been a permanent resident of the State only since 1871, when he was placed on the retired list of the United States Army with the rank of Colonel. He is a graduate of the military academy and served almost continuously in California and Oregon from the close of the Mexican war until 1855. Very soon after the conclusion of the civil war he was retired. Since then he has devoted himself to agricultural pursuits in Los Angeles and been very successful in his ventures. Stoneman's political experience has been limited and the California Democrats have had the benefit of him as a crank who might do much mischief in his own party if he should ever get loose and manage things in his own way. The gallant General has made a beginning by abusing the candidates whom he has defeated.

A Times' San Francisco dispatch says, concerning Stoneman's nomination: This nomination would be regarded as a strong one but for the unfortunate speech made upon the announcement of the result. He gloried in his victory over his opponents; intimated that they were brought forward by the railroad corporations to defeat him, and generally disgusted all who heard him. Following as he did his principal opponents, who spoke most kindly of him and gracefully accepted their defeat, his speech is regarded by his friends as most unfortunate.

**The Croaking Old Tribune.**  
New York, June 24.

A Tribune's editorial says: This is a nice position for "the land of the free," with the Fourth of July close at hand. The Cabinet has just decided that, so far as the Chinese laborers of Cuba are concerned, the longest way round is the shortest way home, and they can't return to China through the United States. Now, we hope that on the glorious Fourth no un-

pleasant patriot will be so lacking in the sense of what is opportune and fit as to read to his perspiring countrymen the Chinese immigration bill as soon as he has finished the Declaration of Independence. Under the circumstances, it would be in shockingly bad taste.

**The Jersey Strikers.**

**JERSEY CITY, June 24.**  
The Jersey City Police Commissioners have authorized Chief Murphy to use the entire force as he may see fit, to prevent violence on the part of the striking longshoremen and freight handlers. This strike is assuming a more serious aspect. A large body of strikers visited the docks of the New York, Lake Erie & Western Railway, where 130 Italians have been employed the past two days. No violence was offered the Italians, but the appearance of the strikers scared them so that they quit work and rushed on board a boat, and were taken to Castle Garden. It is believed they will not dare return to work. The strikers persuaded a number of railroad men to quit work, so that cars cannot be run through to the docks. Serious trouble is apprehended.

**Another Fearful Tornado—One Hundred Lives Lost.**

**DES MOINES, Ia., June 24.**  
A dispatch just received from Fort Dodge says the town of Emmetsburg, Iowa, county seat of Palo Alto county, was blown to pieces this morning by a tornado and over one hundred people killed. The Illinois Central and Chicago and Northwestern trains are blown from the tracks. The Milwaukee and St. Louis road is wrecked by a washout north of Forest City, and there is a report that three or four more towns in that locality are blown to pieces. The wires north of here are all down. It is impossible to get more news, but will work hard to get everything possible.

**An Untrammelled Patriot.**  
CHICAGO, June 24.

A Times special says: Major Anderson of the Iowa Railway Commission, nominated for Congress on Thursday at Council Bluffs, gave a bond for \$1,000 to secure the postoffice at Randolph for S. C. McKintire, in consideration of the support of the latter in Anderson's Congressional aspirations.

**A Quick Passage.**  
NEW YORK, June 24.

Henderson Bros, agents of the Castle line of China steamers, have received a dispatch from the owners, O'Kenner & Co. of London, informing them of the arrival there of the new steamer Stirling Castle from Hankow, China, after a splendid run of 29 days and 22 hours, being the fastest time on record.

**A Prize Fight Interrupted.**  
BOSTON, June 23.

The police to-night stopped a prize fight in the Dorchester District between G. T. O'Brien and M. T. Dowling. Thirty-six rounds had been fought. O'Brien was punished very badly. About 400 persons witnessed the mill, but the police secured only half a dozen.

**A Sleeping-Car Monopoly.**  
CHICAGO, June 24.

The Pullman palace car company has about completed negotiations which will give them control of the sleeping-car business on the lines of the Chicago, Milwaukee and St. Paul, the longest railway system in the United States.

**Nihilists Arrested—Protection for the Jews.**

**ST. PETERSBURG, June 24.**  
The police have seized 88 pounds of nitro-glycerine and 120 pounds of dynamite in a house searched yesterday, besides a quantity of bombs of the newest pattern, ten of which were loaded. Among the persons arrested are several naval officers and a Jewess. It is said, also, that an operator is implicated in the plot. The Major of hussars arrested had for some time been suspected and watched by the police. Agents disguised as coachmen followed him wherever he went, and without knowing it he had repeatedly been driven about by his spies. Lately, too, he had unsuspectingly made himself a friend of the police agent, whom he was in the habit of meeting at a restaurant. Up to the present time about eighty persons have been arrested.

**Le Messager (official)** publishes today a long circular from Count Tolstoi regarding the Jews. It says in substance that while existing laws must be respected, local exigencies must also be taken into consideration. All attempts against Israelites will be promptly and energetically repressed. Recent exceptions were due to the slowness or inactivity of those charged with the repression of outrages. The circular menaces with dismissal all functionaries who display a similar weakness or negligence.

## OUR PUBLIC SCHOOLS.

Programme of the Closing Exercises of the Term.

When the Principal of the Reno schools arrived at the schoolhouse at a little after 8 o'clock yesterday morning, many of the scholars were there before him, and they were busily engaged in decorating the rooms. The boys foraged the town for flowers and canary birds, while the girls, aided by the boys, formed the flowers into wreaths, etc. In the afternoon the Principal's room and that of the first grade were thrown into one, and when the exercises began they were densely packed. Although the exercises were very lengthy, the audience remained until the close, after 5 o'clock P. M. The debates were good. Indeed all tried to do their best. The violin duet of Miss Kittrell and Professor Kaufman was a feature of the entertainment.

## A FISH STORY.

An Artesian Well That Throws up Shrimps and Salt Cod.

The Sacramento Bee has been steam-boated by a passenger who arrived on the overland train, who states that the artesian well which the railroad company had bored in Nevada in search of fresh water is not a success as far as the fresh water is concerned. At the distance of 300 feet a strong stream of salt water was found which flows out at the top. In boring, fossilized fish and other fossils were found in considerable quantity. The informant is one who is familiar with the locality, as he goes over the road frequently and is careful in his statements, therefore in further speaking of the developments he said: "The strangest part of it is that shrimps and salt fish are actually thrown up by the stream. I won't vouch for the shrimps, though it is declared to be the truth." The well was bored at White Plains, in the alkali, and about five miles from Humboldt Sink.

## They All Do It.

Twenty-five years ago the higher clergy of the Church of England were often great card players. Nowadays a card-playing prelate is hardly to be found, though Bishop Elliot of Gloucester deftly handles the cue. The famous polemical debater, Bishop Phillips of Exeter, was the last eminent lawn-sleeved card player. The Cardinals, too, have given up cards. But they have not lost their taste for a good drink such as can be obtained at Chase & Thye on Virginia street, where there is the best of everything.

## Church Notices.

Usual service in the Baptist Church at 11 o'clock A. M. and 7:45 P. M. by Rev. E. B. Hatch. Morning subject: "A Forward Movement." Evening: "Light Weight." Seats free and all made welcome.

## RAPHAEL'S MONARCH.

Great Promises of the Recent Strike in the Downeyville Mine.

Mr. Raphael, principal owner of the Downeyville mine, in which exciting developments were made a few days ago, arrived in Reno last evening from the mine, and gave a GAZETTE reporter some information concerning the strike. He thinks the development a very important one, though reports of it have been somewhat exaggerated. He consents, however, that there is an almost inexhaustible quantity of ore in sight which is worth between \$40 and \$50 per ton, the greater portion of it so soft and friable that it can be easily worked with a shovel. Four men took out 300 tons of ore in five days. Of this quantity there were only about 60 tons of detached boulders of galena and hard carbonates that would have to go through a rock-breaker. Mr. Raphael said he had climbed up into the cave one hundred feet or more and found about nine feet of fine ore on the foot-wall at the top. As it widens out as it goes down it is impossible to tell what there is under water. He thinks he has found the most unique specimen of mineral that ever came out of a mine. Pendant from the roof of the cave was a ribbon of crystallized lead six feet long, an inch wide and not more than an eighth of an inch thick in any part. It was so brittle that it was impossible to save it whole, though the miners tried hard to do so. About 28 inches of it was saved, however, which he will bring to Reno next week in a case which he is having prepared for it, lined with cotton-battin. He is elated at the prospect, and feels rejoiced that the mine will now turn out money pretty fast. The bullion as it comes from the furnace is worth about \$200 per ton.

## A CHANCE FOR SKILL.

A Bet Against Hitting a Foot-square Target Ten Consecutive Times.  
George Ingersoll bet George M. Clifford \$250 that the latter (or any other man he may produce) cannot hit a target twelve inches square ten consecutive times at a distance of 250 yards, with any kind of gun, at rest or otherwise. A forfeit of \$750 has been placed in Thyes' hands, and the trial will come off within ten days. To perform the feat will require superlative skill with the rifle, but just as good shooting has been done by Dr. Pardee of Oakland and Philo Jacoby of San Francisco, at 200 yards. The American Field publishes a letter from T. S. Van Dyke of California, with a representation of a target made in 1875 by Dr. Pardee, which latter shows that at forty yards a dime would have been struck 130 times out of 130 shots, and it is plain enough, he writes, that had the test been of the rifle alone—the wind light and density of balls being got rid of by reducing distance to thirty yards—that every ball would have passed through the same hole without enlarging its diameter 3-100 of an inch after the first shot.

## Sale of Railroad Lands.

B. B. Redding, Land Agent of the Central Pacific Railroad, was at Winnemucca on Tuesday, and sold all the land that was applied for in two townships 35 and 36, ranges 37 and 38 respectively. He was not prepared to sell in any other township in that vicinity. All applicants who were notified to meet him there and failed to do so have forfeited their preferred right to purchase, and their lands are subject to be sold to the first party who may hereafter apply. Berrott & Stauffer bought several thousand dollars' worth. Alex. Wise, R. W. Lewis Atwell Trousdale and Pat O'Donnell each bought several hundred acres. The prices ranged from \$250 to \$4 per acre.

## White Man's Laundry.

James Mitchell has started a laundry just below town on the bank of the river. He employs nothing but white labor, and most respectfully asks that the citizens give him the work that the Chinamen are doing. He guarantees satisfaction, and now, if the people are anxious to rid the town of Chinese laundries, let them give Mr. Mitchell a chance to do the work. He runs a wagon and will call for and deliver to any part of the city. His terms are low, and orders left at the Western Hotel, Lafayette House, or J. E. Fowle's harness shop will be promptly attended to. Read his advertisement under "New to-day."

## Sunday Dinner at the Arcade.

There will be a spread of unusual excellence at the Arcade to-morrow. Extra preparations will be made for breakfast, but the dinner will be superb. There will be roast spring turkey and spring chicken fricasee, with side-dishes too numerous to mention. It will be a grand banquet, made up of the most delicious viands of the season, and all for a solitary half-dollar.

## Kinkead's New Mill.

The castings for this new style of mill have been made at Frazer's foundry and are now being trimmed and prepared for putting together. The more one sees of this device for grinding quartz the more he is convinced that it will do the work for which it is designed by its inventor. Some time next week the mill will be completed and set to running for a working test of its capacity.

Message at the telegraph office for J. A. Weldon.

Read Hale Bros. & Co.'s advertisement under new to-day.

## A Route Planned Out.

We have an old citizen in this place who is very hard of hearing. He has been talking for some time of visiting Germany in the Fall. The other night, after the sermon was over, the minister took a turn round the church, shaking hands and talking. Presently he came to the old citizen, and taking his hand he commenced: "My dear old friend, are you thinking of going to heaven?"

"Yah," said the German, "ven I gits lots of greenbacks mit gold."

"You don't understand me," remarked the other. "I mean don't you want to go to heaven?"

"Vell, I think not; I vas at New Haven once and it is a pad place. I believe I goes down to dot Abrahams Bro's. White House and get a fine suit of clothes for almost nothing. They have the best and cheapest goods in Reno."

## Plumas Items.

[From the Greenville Bulletin of June 21.]  
G. O. Simons, who appeared to be at the point of death a week ago, is now some better.

Arrangements have been completed to build another structure on the site of the pavilion destroyed in the fire recently. The new building will be one hundred feet long by thirty feet wide, and will be fitted up for use as a town hall and pavilion.

Work on the new mill at Janesville, Honey Lake Valley, is progressing rapidly; the foundation is built, and carpenters and millwrights are busy on the woodwork.

During the past week a good many hoppers have appeared on the Scott ranch. Efforts are being made to keep them in check by burning and crushing, but past experience affords little hope of relief by these means. Not much damage will be done to the hay crop, as that is well along toward maturity, but very serious fears are entertained for the grain.

## Napa Collegiate Institute.

The Fall term of the Napa Collegiate Institute, Napa, Cal., will open July 26th, 1882. This most excellent institution has never enjoyed a larger patronage than at the present time. The school is in a very prosperous condition and affords the best advantages to those desiring a thorough education. Napa is a town of 4,510 inhabitants, situated at the head of navigation on the Napa river, in Napa valley, renowned for the healthfulness of its climate and beauty of its scenery. ## LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS as the highest essence on both sides of the Atlantic, as an invaluable Food and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

**NURSING MOTHERS**, who suffer from poverty of milk, find it a useful and reliable substitute for their own milk. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and is a generous flow of milk.

**WEAK AND SICKLY CHILDREN**, who suffer from indigestion and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

**INVALIDS AND CONVALESCENTS** will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither palliates upon the appetite nor offends the taste.

**DELICATE FEMALES**, who suffer from the weakness of their sex, will derive lasting relief from its use. It invigorates the digestion, purifies the blood, stimulates the appetite, and restores the system.

**WEAK AND DELICATE PERSONS GENERALLY**, who require some artificial restorative, and especially those who are afflicted with Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

**AS A FLESH RESTORER** it possesses the highest value. The whole tendency of its action is to stimulate the digestion of food-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

**THE LIEBIG MALT EXTRACT** is a pure concentrated Food Extract of Malt, agreeable to the taste, and free from alcohol. It is readily assimilated on the stomach, and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and a fac-simile of his signature, as well as that of A. VOGLER & CO., Sole Agents for America.
